

# Five Day Weather Forecast

# OMJ Five Day Weather Forecast

**The new UK and Ireland Five Day Weather Forecast is a powerful weather forecast which provides detailed weather information with historical comparisons.**

This service allows you to access the weather data for location(s) of your choice.

The data empowers you with accurate information in order to make fully informed business decisions.

## Key Features Include:

- Five day forecasts
- Customisable locations
- Average data for the next five days in area e.g. temperature and rainfall
- Comparison of next five days with the same period last year and the ten-year average
- 1 - 5 and 6 - 30 day forecast reports from the Met Office

## How To Access:

You can access the OMJ Five Day Weather Forecast by logging onto the OMJ Desktop Application at:

<https://app.the.omj.com>

On the navigation bar, select **'Weather'** and then select **'Daily Forecasts'**

## How To Choose Weather Locations

You can customise the service by choosing the weather locations in:

**'My Account'** and select **'Weather'** on the menu on the left of the screen

## Location

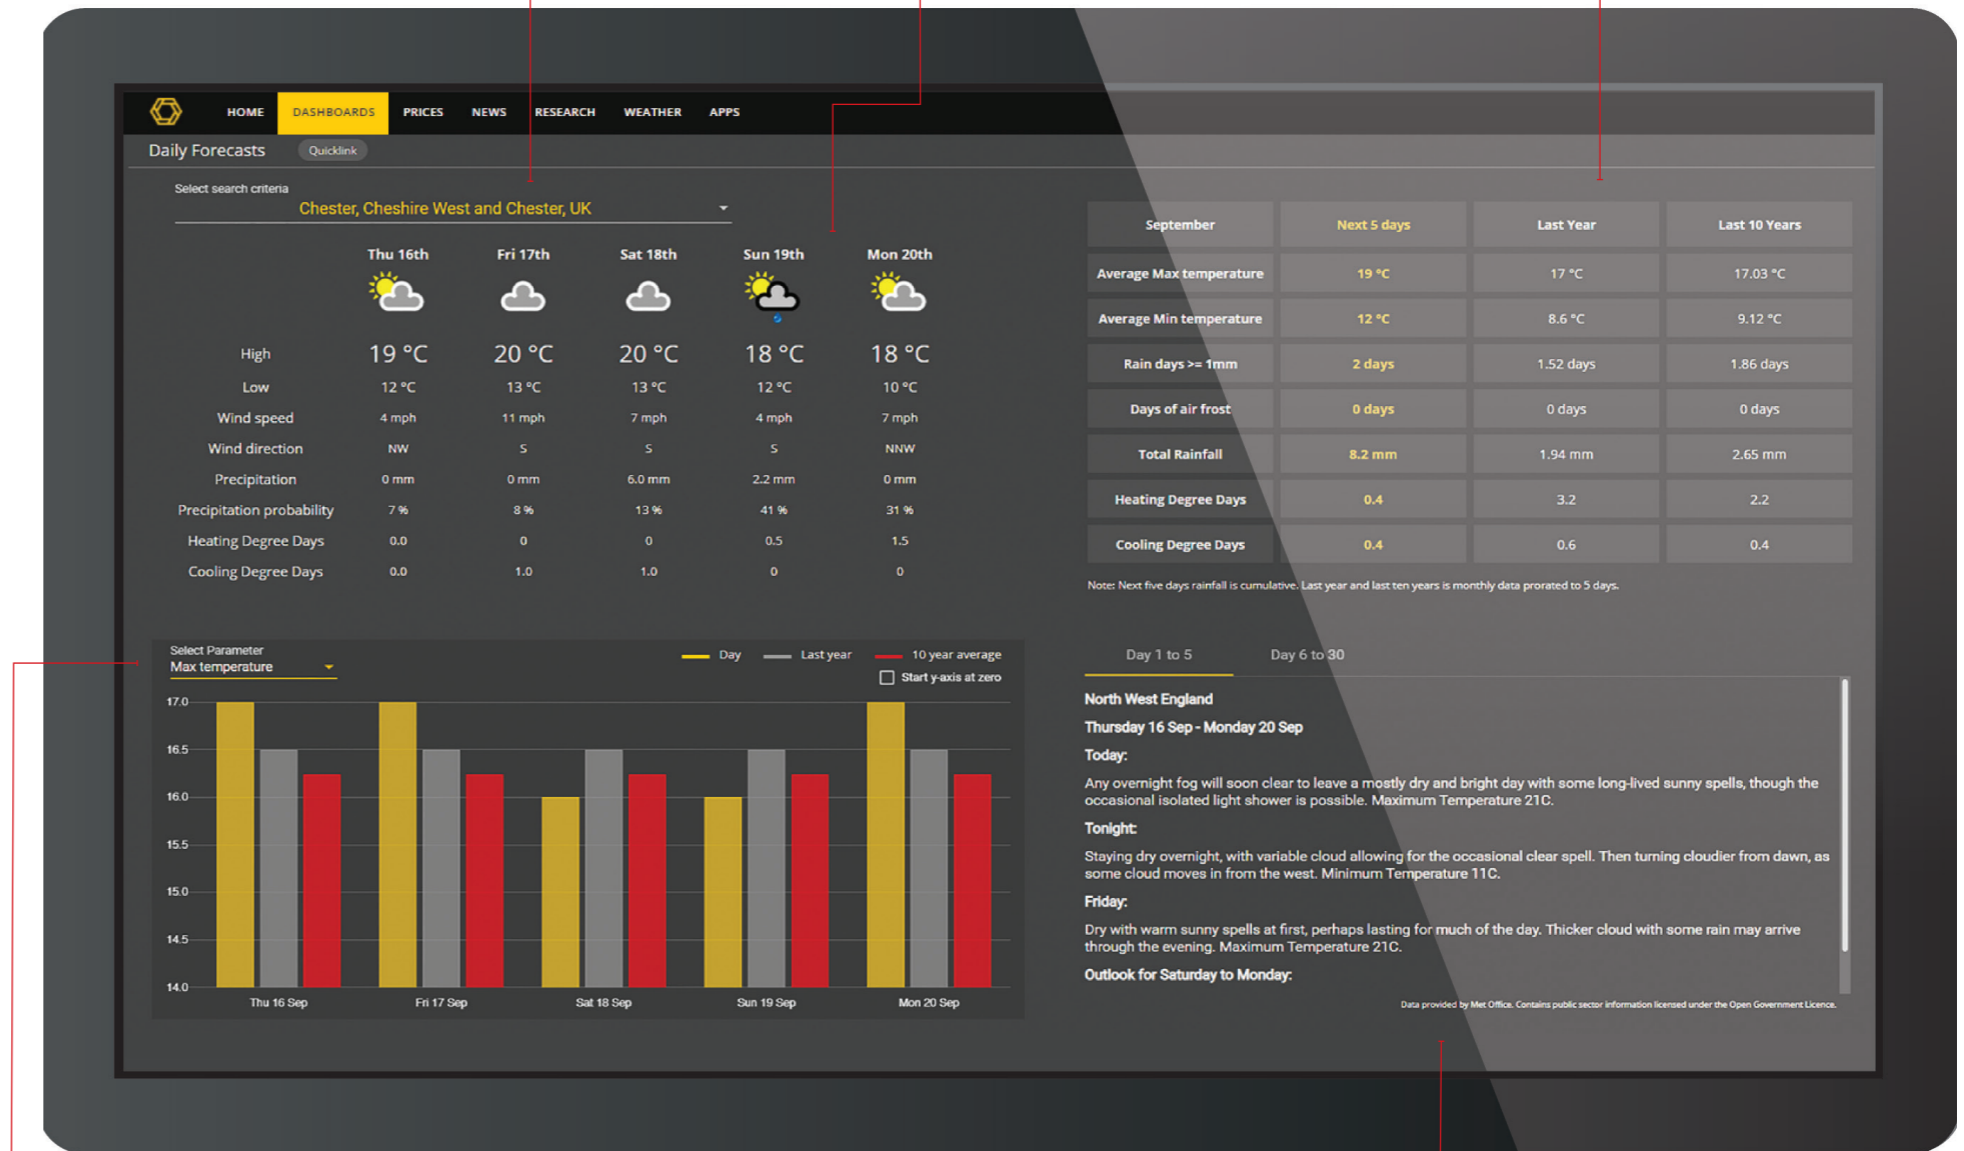

The forecast provides a watchlist for your selection of locations, for example, this could be all of your depot locations.

## Five Day Forecast

The OMJ provides five day forecasts of maximum and minimum temperature, rainfall, wind speed and direction, precipitation, precipitation probability and degree days for any chosen UK & Ireland location.

## Comparison Table

Compare the average maximum temperature, average minimum temperature, rain days, days of air frost and total rainfall in the next five days with the same period last year and the ten-year average.

## Comparison Graphs

Compare maximum & minimum temperature, rainfall and degree days in graphical format for the next five days with the same period from the previous year and the ten-year average.

## Forecast Summary

UK 1 - 5 day and 6 - 30 day forecast summary reports are published, which provide additional weather information in association with the Met Office.

RoI 1 - 5 day forecast summary is available in association with Met Éireann.
